

# Infront Professional Terminal

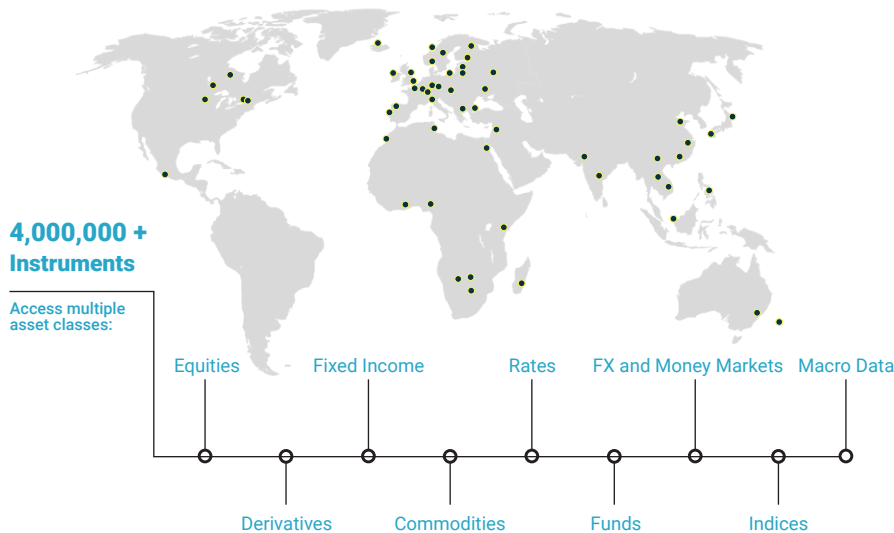

## Professionals in 50 Countries Trust Infront Every Day to Discover, Analyze and Trade the Global Financial Markets

The Infront Professional Terminal provides access to real-time global markets, news, analytics and electronic trading. The terminal includes access to all asset classes and is highly customizable with an intuitive interface.

## Access the Global Market

With information on more than 4 million instruments from 80 exchanges around the globe, in addition to several leading specialist and OTC sources, Infront provides you with accurate and comprehensive market data managed securely from our data centres. Access markets in real-time, delayed, or end-of-day.

## A World of Company Analytics

Screen, analyze and compare global listed companies with cutting-edge Infront Analytics equity research tools. Download key financials, consensus estimates, ratios and company factsheets in seconds.

## Access Anywhere

With an Infront subscription, you will have mobile access in addition to the terminal.
