- Predefined company peer groups & peer tracking
- Easy presentation of reports via the Grunt PowerPoint add-in

Infront Estimates

Get the latest analysis for you and your peers

Investors want to know what to expect from your company and how the market is reacting to those expectations. Infront collects and distributes the highest quality consensus to the market, giving your investors the best information available.

Infront covers over 1,000 listed European companies. Your company data can be compared to peer groups and retrieved to Excel via an Excel plugin from the Equity Analytics Module for further analysis.

The Infront Estimates consensus is made available in the Infront Professional Terminal and via widgets for your company website. You get a clean, easy-to-read overview of up-to-date information all in one place. The Excel add-in includes detailed, ready-made and refreshable Excel templates covering:

- Preview estimates – ahead of interim results
- Post estimates – updated after interim results
- Analysts’ reports – displays individual analyst estimates for each period

Infront IR Web Service
